REASONS FOR ALLOWANCE

1. Claim 1 is amended, claim 4 is cancelled, claim 20 is added, and thus claims 1-3 and 5-20 are pending.
2. Pending claims 1-3 and 5-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: The combination of Sato (US 5,560,982) and Shaw-Klein (US 6,110,585) teaches an ink jet recording sheet having a transparent base, and two crosslinked ink receiving layers on one side of the base. One of the ink receiving layers that is applied on the base is an ink solvent fixation layer (equivalent to the claimed ink absorbing), and the other ink receiving layer that is applied on the ink solvent fixation layer is ink dyestuff fixation layer (equivalent to the claimed ink transmitting layer). The ink dyestuff fixation layer comprises a binder and fillers. The combination of Sato and Shaw-Klein neither teaches nor suggests that the ink dyestuff fixation layer is crosslinked to a greater extent than the ink solvent fixation layer.

Iwamoto et al. (US 6,139,940) teaches an ink jet recording sheet having a transparent substrate, an ink absorbing layer onto the substrate, and an ink permeable layer (equivalent to the claimed ink transmitting layer) onto the ink absorbing layer. The ink permeable layer comprises inorganic pigments, crosslinking agents, and a hydrophobic resin. Iwamoto neither teaches nor suggests crosslinked ink absorbing layer, and does not teach or suggest that the ink permeable layer is crosslinked to a greater extent than the ink absorbing layer.
